EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard L. Kaiser on February 27, 2006.

The application has been amended as follows:

In claim 1, in line 2 after "to a shaft" inserted --having a bolt receiving recess--.

In claim 1, in line 4 after "first portion" deleted "comprises" and replaced with --comprising--.

In claim 1, in line 5 after "a shaft receiving slot" inserted -- , --.

In claim 1, in line 8 after "the first and second walls" inserted --for receiving a bolt extending through the through bore in the first and second walls and engaging the bolt receiving recess when the shaft is completely inserted into the shaft receiving slot--.

In claim 1, in line 12 after "through the radial opening" inserted --in a radially outward direction--.

In claim 1, in line 13 after "into the shaft receiving slot" inserted -- , such that the bolt is not in engagement with the bolt receiving recess--.

2. The following is an examiner's statement of reasons for allowance:

Art Unit: 3679

As to claim 1, Cymbal (US 5,366,316) discloses the claimed shaft coupling element with the exception of wherein the shaft can pass through the radial opening in a radially outward direction when the shaft is not completely inserted into the shaft receiving slot, such that the bolt is not in engagement with the bolt receiving recess.

There is no teaching or suggestion, absent the applicants' own disclosure, for one having ordinary skill in the art at the time the invention was made to modify the shaft coupling element as disclosed by Cymbal to have the above mentioned elemental features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael P. Ferguson whose telephone number is (571)272-7081. The examiner can normally be reached on M-F (8:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel P. Stodola can be reached on (571)272-7087. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
